

Name: _____

Date: _____

Helping Hands

When Mom came home from the store she was carrying big bags of food. She needed my help to put everything away. In one bag I saw milk, eggs, and meat. In another bag there were cookies, bread and chips. The last bag had apples, oranges, and bananas. I helped mom by putting the food away in the right places.

1

To help Mom, the child had to know

- how to carry the bags
- where to put the food
- which store Mom went to

2

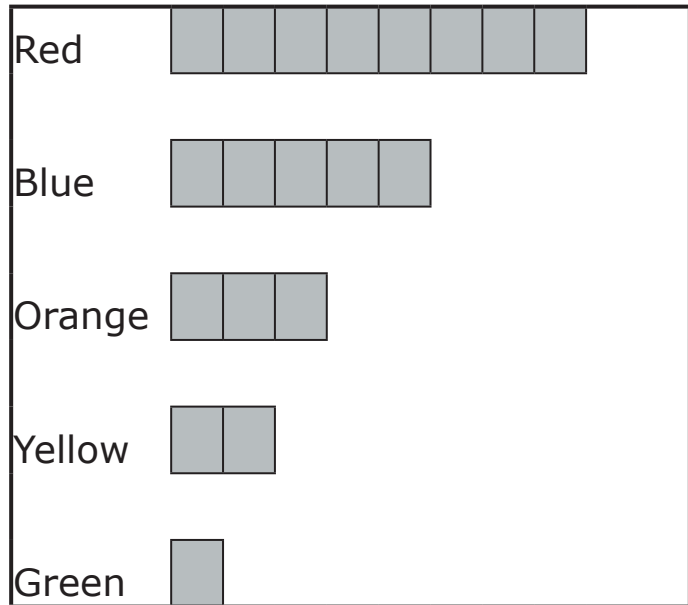

Which of these is true?

- Mom needed help putting the new toys away.
- All of the bags had fruit in them.
- There were three bags of food.

Name: _____ Date: _____

Our Favorite Colors

The children in my class were each asked to pick their favorite color. The teacher put all the colors on a graph. Some students think red is the best color. Other students like the color blue the best. Some students even like orange and yellow. Look at the graph.

3 Which color was picked by the fewest children?

- Green
- Orange
- Yellow

5 Which color was picked by 5 children?

- Orange
- Blue
- Yellow

4 What does this graph show as the favorite color of most of the children?

- Blue
- Green
- Red
