Taking Care of Animals

Seal

Tiger

Panda

There are many animals that are in danger and need our help. There are seals, tigers, and pandas that are in danger. Sometimes hunters hurt these animals. Many times their homes are taken away. Sometimes they cannot find food to eat.

We can help save these animals by keeping them out of danger. Zoos can also care for some of these animals. People can help them have a safe place to live.

1

What does this story say about some animals?

- They want to live in a zoo.
- They are in danger.
- They have too much food.

2

What do these animals need?

- a place to eat their food
- their homes taken away
- a safe place to live

Name: _____ Date: _____

The Bee

A bee is an insect that lives all over the world. Bees have little hairs on them. These hairs hold pollen that looks like dust. Bees move from flower to flower, getting pollen. They eat some of it. Sometimes the pollen is dropped on other plants. It helps new plants to grow. So, you could say that a bee is a helpful insect.

3

The story says that

- a bee eats dust
- a bee is helpful
- a bee drops hair on plants

5

Where can you find bees?

- all over the world
