

Name: _____ Date: _____

Ducks

There are many different kinds of ducks. Some ducks are small. Some ducks are large. Some ducks live near fresh water, while other ducks live near the sea.

Ducks make quacking sounds so that they can talk to each other. You might be able to touch or feed a duck if you visit a petting zoo or a farm. It is fun to watch ducks as their fluffy little ducklings follow close behind them.

1

Why do ducks make sounds?

- to talk to each other
- to get someone to feed them
- to get someone to pet them

2

What does this story say about ducklings?

- They all live near fresh water.
